

## **NUS Field Course**

National University of Singapore conducts an annual field course in Ecology in collaboration with the Sabaragamuwa University of Sri Lanka and the Department of Wildlife Conservation in Sri Lanka. The first course was held from 17<sup>th</sup> May – 13<sup>th</sup> June, 2015. The course will take place across three protected areas and their surroundings, covering three major ecosystem types as well as anthropogenic landscapes, and will introduce the students to a wide array of biodiversity, ecological and conservation principles.
